Dear NSREC Attendee,

IEEE has been monitoring the developing Coronavirus COVID-19.

The safety and well-being of all conference participants is our priority. After studying and evaluating the announcements, guidance, and news released by relevant national departments, we must announce that the 2020 IEEE Nuclear and Space Radiation Effects Conference, scheduled to be held July 20-24, 2020 in Santa Fe, New Mexico USA, will be postponed to the first week in December 2020.

We will be developing the new NSREC 2020 schedule for technical presentations, posters and workshop and Industrial Exhibits soon.

The Hilton Buffalo Thunder and the Homewood Suites will automatically cancel all existing hotel reservations that were booked within the group blocks for the July dates. Once the new links are available for the December dates at the Buffalo Thunder and Homewood Suites, we will supply that data to you. If you did not book your reservation within the group blocks, or if you booked your reservation at an alternative hotel, then you will need to cancel your own reservation.

Again, we apologize for any inconvenience this has caused and we thank you for your understanding. We will also be updating the NSREC website, www.nsrec.com, with the latest information.

Sincerely yours,

Hugh Barnaby
2020 IEEE NSREC General Chair
